

Spear

What you'll need:

- spear template from group.com/vbsTools
- jigsaw
- $\frac{3}{4}$ " PVC 5' long
- cardboard (8"x8" scrap)
- pencil
- black marker
- scissors
- black spray paint
- dropcloth
- aluminum foil
- jute
- hot glue gun
- gloves

What you'll do:

Step 1: Cut the PVC to 5' long. Spray paint the PVC black.

Step 2: Download the spear template, and print it out.

Step 3: Trace the spearhead onto the piece of cardboard, and cut it out.

Step 4: Cover the spearhead with foil, shiny side out.

Step 5: Insert the spearhead into the end of the black PVC. Use hot glue to secure.

Step 6: Cut about 8' of jute.

Step 7: Stick one end of the jute into the tacky hot glue. Then wrap the jute around the PVC near the spearhead. Tuck the end under a few of the loops and tie off the jute.
