Dear «SALUTATION»,

This summer, CRAVE will encourage your child to discover how Jesus' love satisfies our deepest hunger — and how that love moves us to care for others. Through our VBS outreach project, in partnership with OSV, your child will have the opportunity to provide nutritious food for impoverished children and families around the world.

A meal means so much more than a full belly. For a child facing hunger, it can bring the energy to stay focused in school, the ability to sleep all through the night, and the security to imagine a brighter future. When that physical nourishment is paired with the love of Christ, it makes an even greater difference. A person who receives both food and God's love finds hope that reaches far beyond today.

Your child can be part of that story. Through their prayers, generosity and participation, your child can help deliver hope to those in deepest need! Together, we can help your child turn a hunger for Jesus into love in action.

Thank you for helping your child discover that Jesus' love is meant to be received, lived and shared!

May God bless you and your family abundantly.

In Christ,

Cross Catholic Outreach
